

## **2CRSI acquires a majority stake in Tranquil PC a world leader in the field of low energy IT**

### **Strategic acquisition for designing and manufacturing aluminium clusters with unique energy efficiency properties**

Strasbourg, France – 04/04/2018 – 2CRSI, designer and manufacturer of innovative storage systems, high-performance computing (HPC), and customized IT solutions, has announced the acquisition of a majority stake in Tranquil PC, a long-standing commercial and industrial partner.

Tranquil PC, located in Manchester, UK and employing 11 professionals, is a leader in low energy IT systems. It offers aluminium-based system chassis manufactured within its own factory, from raw billets to precisely manufactured, hand finished and anodized products. Since 2015, Tranquil PC has also experienced a rise in demand for its compact multi-node cluster servers. In 2017, Tranquil PC achieved revenues of £2.45 million with positive EBITDA and a loyal customer base.

This acquisition strengthens 2CRSI's position as a manufacturer of innovative server solutions by:

- completing its offering in low-energy server solutions;
- fueling innovative capacities in clusters designing and server architecture;
- extending its expertise in providing comprehensive and tailor-made products range
- expanding its customer base.

The experienced and qualified staff and management team of both 2CRSI and Tranquil PC will play an important role in the future development of the operations. Their expertise and know-how, supported by 2CRSI's international presence, will contribute to the future success of the combined activities.

With the transaction, 2CRSI and Tranquil PC will expand their industrial and commercial relationship.

Financial terms of the agreement have not been disclosed.

### **About 2CRSI**

Founded in 2005 and with headquarters in Strasbourg, France, and San Jose, CA, 2CRSI designs and manufactures innovative storage systems, high-performance computing (HPC), and customized IT solutions. Their servers are designed and manufactured in France and assembled in both France and the US. 2CRSI customers include data centers, independent software vendors, distributors, and other businesses with a need for high-quality, efficient, reliable storage and computing. 2CRSI currently has 75 employees.

### **About Tranquil PC**

Founded in 2003 and based in Manchester, UK, Tranquil PC specializes in the complete design and in house, turn key, manufacture of both specialized rugged IT hard ware systems and bespoke micro server systems. With advanced manufacturing equipment (high speed, precision CNC mills) and finishing systems (anodizing, power coating and lasers) in the same location as the CAD/CAM systems, Tranquil PC has an enviable facility to realize custom designs, in weeks, days or even hours to customers globally, greatly reducing time to market. Blue chip organizations, and smaller corporations alike have benefited from working with Tranquil PC, especially in emerging sectors – where short time to market and cost effective, innovative solutions are required and valued.
